PLACEHOLDER RESUME

Replace this file with your own PDF: assets/resume.pdf

Name: tyee33
Role: Full-stack Developer / AI Applications
Site: https://tyee.is-a.dev/
Email: tyee33@example.com

How to replace:

1. Export your resume as PDF.
2. Save it as assets/resume.pdf, overwriting this file.
3. Commit and push -- the download button keeps working, no code change needed.

This placeholder exists only so the download link never 404s.
